RESPONSE:

Searches have been conducted and in relation to your request, I can confirm that the following information is held:

Between April 2022 and March 2023, the only supplier on this list that we have used in the last year is RS Components – spending £184.49 including VAT.

The numerical data presented in this response is an un-audited snapshot of un-published data sourced from "live" systems and is subject to the interpretation of the original request by the individual extracting the data. The figures provided therefore are our best interpretation of relevance of data to your request, but you should be aware that the collation of figures for ad hoc requests may have limitations and this should be taken into account when the data is used.

Due to the different methods of recording information across fire services, a specific response from one service should not be seen as an indication of what information could be supplied (within cost) by another. Systems used for recording these figures are not generic, nor are the procedures used locally in capturing the data. For this reason responses between services may differ, and should not be used for comparative purposes.

If you decide to write an article / use the enclosed data we would ask you to take into consideration the factors highlighted in this document so as to not mislead members of the public or official bodies, or misrepresent the relevance of the whole or any part of this disclosed material.

APPEAL RIGHTS

If you are unhappy with how your request has been handled or you do not think the decision is correct, you have the right to ask for a review of the decision.

Prior to lodging a formal appeal you are welcome and encouraged to discuss the decision with the case officer that dealt with your request.

Where possible the Service will aim to respond to your appeal within 20 working days. However meeting this time scale will depend upon the circumstances and complexity of the issue.
