Request:

I am currently conducting research into the number of chlorine incidents in leisure facilities for a report on the operating standards in swimming pools/spa pools.

Clarified as:

1. Most incidents will normally have a chemical mix creating chlorine gas, but if chemical mix incidents makes it easier for you to get the information.
2. 2020 to date please.
3. Data relating to both [council run facilities and privately run spa facilities] please.

Response:

Please note that this data relates to public leisure facilities only; Northamptonshire Fire and Rescue Service are unable to comment on private properties. Data is provided from 2020-2025.
